THE TIMES.

FARMVILLE

Old "winter lingering in the lap of Spring" has given grave concern to the small boy who had discarded his shoes and the young girl who had made a seat on the "cold, damp ground." "We told them so," and yet telling again will be just as idle. The natural thing to do is never to make changes until after the "long season" in May. There will be so-e warm days and some parching but better this than pneumonia or premature death

The "sweet girl graduate" begins to grow restless as commencement day approaches and the 'best man' is already thinking of flowers.

The speakers for the Hampden Sidney commencement have been selected. Col. B. H. Young of Kentucky, will address the literary societies and Mr. W. H. Venable, of Norfolk, the alumni. The latter is a Prince Elward boy who has made enviable reputation as lawyer and platform orator.

The statement of the Bank at Pamplins, which appeared in your columns tells of at least one 'infant industry' that needs no protection. It hardly stood alone before it began to walk and then to run. But Pamplins always was a live business centre and no industry could locate there and then go to sleep. Is'nt her pipe factory the largest in the world?

The "Normal League" which had its birth at the Normal School is doing a noble work in the aid it extends to des-rving young girls who are anxious to obtain a practical education. Rockefeller will probably never hear of the splendid charity but the rest of us do know of and all can help some. Miss Andrews, of the faculty, is controlling spirit in the movement and deserves high honor for her unselfish and intelligent work in connection with it. The busy woman like the busy man always has time to do something else.

Farmers differ so widely as to the prospects for fruit that it is hard to know whether we are to have the luxury in abundance or not.

During the first two weeks of April our dealers in drv goods, boneta, notions an l such like looked distressingly lonesome. Spring prints and frost don't mix well, nor summer wear and snow storms, and but for Coca Cola our soda fountains would have been as still as "grandfather's clock." But the hot sun will yet shine upon us and the ice man will yet have the right of way.

Messrs. Garland and Martin general insurance a cents of ours, to-n, have recently given evidence of their faith in home institutions in contrast with those located elsewhere, especially the so called "giants" of New York.

The people of the cotton states not only grow cotton, but manufacture the raw material into cloth, and so the time is not far in the future when the South will be independent on all lines. Farmville should be an important manufacturing centre.

Our flour mill is a splendid success and runs night and day. I am told there was a time when wheat bran was'nt considered valuable, but now it is gold dust and the supply never equal to the demand.

The high price of railway ties has opened up a new and ferocious attack on our forests, and it does look as though 'woodmen' would'nt 'spare a tree. It does look to be reckless but the race is on and the pace is quickened each coming and going day.

No successor has as yet been chosen to Rev. Dr. Murry, recently resigned the pastorate of the church at Hampden Sidney. Here is an important field for a young, aggressive and consecrated man of God. Preaching to young men and young women, who are being educated for life-work must be attractive as well as responsible privilege, the best to follow Dr. Murry offered on Sunday in scholarship

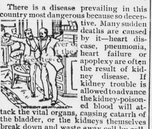
The Cause of Many Sudden Deaths.



There is a disease prevailing in this country most dangerous because so deceptive. Many who have it think their backs are caused by Rheumatism, in case, pneumonia, heart failure or apoplexy are often the result of kidney disease. If kidney trouble is allowed to advance the kidneys become diseased blood will attack the vital organs, causing catarrh of the bladder, or the kidneys themselves break down and waste away cell by cell.

Bladder troubles almost always result from a derangement of the kidneys and a cure is obtained quickest by a proper treatment of the kidneys. If you are feeling badly you can make no mistake by taking Dr. Kilmer's **Swamp-Root,** the great kidney, liver and bladder remedy.

It corrects inability to hold urine and scalding pain in passing it, and overcomes that unpleasant necessity of being compelled to go often through the day and to get up many times during the night. The mild and the extraordinary effect of Swamp-Root is soon realized. It stands the highest for its wonderful cures of the most distressing cases.

Swamp-Root is pleasant to take and is sold by all druggists in fifty-cent and one-dollar size bottles. You may have a sample bottle of this wonderful new discovery and a book that tells all about it, both sent free by mail. Address, Dr. Kilmer & Co., Binghamton, N. Y. When writing mention reading this generous offer in this paper. Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

Why Some Tobacco Is Best

Is well and interestingly told in Virginia-Carolina Fertilizer free almanac by experts on tobacco farming. The free burning qualities of tobacco are greatly impaired by using impure, inferior and "cheap" fertilizers. Insist upon your fertilizer dealer supplying you with high grade
Virginia-Carolina Fertilizers
for they contain no ingredients that will injure your soils like so many other guanos. Use from 500 to 800 lbs. of these fertilizers per acre, according to the strength of your soil—and the growth of your tobacco will be hastened forward two or three weeks. Your yield per acre will be greater, and the quality better—larger leaves containing good body and excellent finish. Then you will obtain more money for your crop, get one of our beautiful almanacs. It is free but worth $1.00 to any farmer.

Many Interesting Reports Made of Her People.

Announcement.

To the Voters of Buckingham:

After being requested by many of our Democratic friends in Buckingham County, we now announce ourselves as the Independent candidates for the office of Sheriff of Buckingham County. We appreciate the kindness of our Republican friends in endorsing our candidacy and they have our thanks, but we want it distinctly understood that we are Independent candidates for this office and have been all the time, and have been endorsed by our Republican friends. Knowing the duties of this office we feel that we can manage the affairs of the office with due credit to ourselves. Thanking you for your consideration expressed heretofore and bespeaking your further consideration, we are, Yours faithfully.

The peaches seem to be killed, but the apple blooms are, most of them alive at this writing. Mr. Jas. Murphy says when the fruit year is at hand there will be fruit no matter how cold it gets.

A writer in a recent number of an agricultural paper claims that his boy raised 5 per cent. out of 60 turkeys, but I can go him two better than that, one of Buckingham's noted turkey raisers raised 74 out of 75 in one flock, and this spring she has 15 turkey hens laying and I shouldn't wonder if she raises 200 head this time.

Mrs. Wiley Morriss and Mrs. William Horner have been on a visit to their parents, Mr. and Mrs. L. D. Jones at New Store the past week.

Judge John R. Moss attended Cumberland court looking after his political fences.

All ladies are allowed to change their minds and the date for holding the High School final has been changed to the 9th of May. The pupils have been well drilled in the parts they are to take and unless some of them are "Stage Struck" we are to have a nice entertainment. The Ladies Aid Society and the Junior Society of the Presbyterian Church will serve refreshments, and the whole entertainment will be in the court house building.

Mrs. Lewis Cabell continues with her mother at "Rock Cliff," and it is thought that Mrs. Eliza Horsley is improving.

Judge Horsley is probably back from the European trip as he was to sail last week.

The two colored men in jail here charged with setting fire to Elcan and Smith's houses claim that there can be no evidence against them, and that they made no admissions to the negro detective, who caused their arrest. The crime of arson is one that often goes unpunished in this county.

We read of new potatoes, tomatoes, squash, and other vegetables on the Norfolk market, but when we read of $7.50 a barrel for potatoes we only wish we had them to sell. I paid 50c. a bushel for some old ones.

The daily papers say board at the hotels and boarding houses at and adjacent to Jamestown is from $3.50 to $20 a day, or rather the expenses one may readily incur in a day there would reach $20. These near enough to furnish provisions should reap a harvest this summer. Eggs went up to 19c. a dozen in one day when the great gun boats anchored in Hampton Roads.

There was a killing in Campbell one week and not many days later a killing in Nelson, and a writer in one of the city papers asks, "What is the matter." There is "a heap" in the papers now about the "unwritten law," and in a St. Louis court a Judge discharged a panel of 50 men who were summoned for jury service, because they said if the accused should plead the unwritten law they would acquit him. I don't know whether when this unwritten law is written, it will be to license men to slay their fellows or not, but if this so called unwritten law is as variously defined as seems to have been the case in the courts of late, it is high time that it should be written, and that very plain.

Arvouia Sounds a Warning.

EDITOR TIMES:—The voters and prominent citizens of this, the most prosperous and populous section of Buckingham county, are becoming much interested in the approaching political campaign when a delegate to the legislature is to be chosen from this county.

Sentiment has already crystalized in bitter opposition to any man who aspires to this office and who opposes or has opposed the Mann law.

Arvouia has gotten rid of the saloon by the operations of the Mann law, and the town to-day is in a most prosperous condition. Houses, stores, a large hotel, halls and other buildings are now being erected on every hand. The place never was doing so well.

Men and women here do not wish the return of the saloon, and will not have it. The man who gets the votes of this section, whether a Democrat or a Republican, must declare himself unqualified in favor of the workings of the Mann law, and he must pledge himself to uphold it.

If the Democratic party is wise it will not risk any man who is openly against this law or even on the fence in regard to it.

There are men of influence here who will work strenuously to defeat any candidate who opposes the Mann law. If the Democrats and Republicans both put up men opposed to it, then an independent candidate will almost certainly be put up who favors the Mann law.

Those who aspire to this responsible office had better declare their position at once. The people down this way are not going to run any risk from the open saloon any more. They will snow under any man who opposes the great temperance law.

Candidates, declare yourselves, and at once. VOTER.

Canada Field Peas.

There is much interest in the cultivation of Canada Field Peas, and enquiries are constantly received as to the best varieties and methods of cultivation suited to this crop. It has been advocated by many that the Canada field pea might be sown late in the fall and allowed to remain in the ground all winter, and that it would make a very satisfactory crop the next year. Spring seeding has also been advocated, but an experience of several years does not indicate that the Canada pea is well adapted for cultivation in the south as large yields have never been obtained with it either when combined with oats or grown singly for the purpose of soiling or grain production. The results of our tests show that in the year 1905, 8 bushels per acre was the largest yield obtained, and this was made by White Harrowfat and White Canada Field. The other varieties tested fell much below this. The largest yield of straw was made by French June, 0 ton per acre. This crop frequently makes 20 to 30 bushels per acre in Canada where climatic and soil conditions seem to be to its liking. We are of the opinion that many other legumes can be grown to more advantage than the Canada pea, and if the farmer will give his attention to the cultivation of these, he will be much farther ahead in the long run. These results are reproduced to give a fair idea of our experience with the cultivation of this crop.

Southside.

Go bury thy sorrow, the world hath its share,
Go bury it deeply.
Go hide it with care,
Go think of it calmly,
When curtained by night,
Go tell it to Jesus and all will be right.

Hearts growing aweary,
With heavier woe
Now droop 'mid the darkness.
Go comfort them go.
Go bury thy sorrow,
Let others be blest;
Go give them the sunshine,
Tell Jesus the rest.

Recently, while resting in one of our large stores we overheard two women talking. They were speaking of another woman of the community, one that had had much trouble and affliction. The first speaker said, "How can Mrs. —— be so lively when she has had such terrible trouble, if it was me I don't believe I could ever smile ;" and the other said, "Oh, she is not one to take anything much to heart, and you know some people can get over anything." Now we happen to know the poor woman of whom they were speaking and this is what we have heard her say in regard to her many afflictions: "When my troubles first came upon me, I could not think or speak of anything else, and was so full of sorrow myself that I know I was a burden to everyone with whom I came in contact, but thinking over my troubles through many a long, long sleepless night, I came to see that it was not right to shadow the lives of my other dear ones and afflict my friends with my troubles, and I concluded to bury my sorrow deep in my own heart and do all I could to comfort others."

We remember hearing our dear and sainted friend, Mrs. Dr. W. H. Abbitt, say in speaking of a young mother, who had lost her only child: "——— tries to be lively and cheerful, but just look at her sometimes, when she thinks no one is regarding her, and she has the saddest face I ever saw." So dear friends "Judge not that ye be not judged." Just put yourself in their place and see how you would act. Look deeper than the surface, and see if you cannot see behind the smiling eyes and lively talk signs of the crushing sorrow that is never for one moment forgotten.

The weather continues cold. Not much chance for anything to grow, but it will be warm bye and bye.

Again we hear echos of the wedding bells and report two more lovely southside brides. Best wishes to Mrs. Howard Marshall and Mrs. William Chilton. Now we are listening to hear the ringing of the bells at Evergreen again.

Mr. W. T. Cross has recently opened up again his bottling works in the old storage house of Mr. E. C. Cross. Mr. Cross has the reputation here of putting up about the best goods on the market.

Mr. R. W. Stratton contemplates making an addition to his residence now in North Concord. The addition will add two more rooms to the house and when completed will probably make the most magnificent home in that section now.

The lumber for the Fisher Memorial Baptist Church here is being placed and the good work is expected to begin shortly.

Dr. Ned Fisher is visiting the town this week.

Miss Jessie Martin, who was in Lynchburg attending the opera and visiting friends, has returned home.

Glenfall.

The all absorbing topic of the present is farming and its accompanying hinderances. Scarcity of labor and frequent rains are calculated to make one restless and low-spirited, yet our "rustic heroes" wear smiling faces, and go bravely forward, having learned "to labor and to wait."

The cutting of chestnut, which has been an important industry for some time, has been discontinued. Thousands of cords are yet to be hauled, when and how is puzzling the minds even of wise persons.

Mr. Wooldridge, of Glenfall, has returned home, after a brief visit to his children in the Hill City.

Mr. and Mrs. Wilbourne Woolridge visited relatives at the old Homestead Saturday and Sunday last.

Mr. and Mrs. E. A. Walton were the guests of Mr. L. E. Smith and Mr. M. C. Caldwell several days last week.

The road machine, managed by Messrs. Cabel Moore and Roxal Coleman, is now on our highways.

Miss Ida Jones and sister, Mrs. Payne were guests of Mrs. E. A. Walton on Saturday last.

Mr. Frank Jones visited his sisters last week.

Peyton Robertson, a colored man, of before the war, died at his home near here last week. He was noted for his integrity and kind heart, and had a host of friends among the white people.

It is difficult now in Ohio to tell whether it is Senator Foraker's boom or bunn.

Deafness cannot be Cured.

by local applications, as they cannot reach the disease portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that can not be cured by Hall's Catarrh Cure. Send for circulars, free.
